

Table of contents

Thanks to everyone for getting back to us about whether you want to continue in the study and which phone you want. We are processing all your emails.

For those of you who have not responded, we are extending the deadline for notifying us whether you want to continue in the study. ***If you want to continue in the study please email us no later than 9 p.m. on Wednesday, October 14th*** and let us know which phone you would like, whether you will be studying abroad this semester, and whether you want to apply for financial assistance. I am attaching a copy of the email letter we sent out last week which has more information about continuing in the NetSense study.

As promised attached, is the revised **consent form**. ***You must read, sign and date it (if you plan to continue in the study), and return this form to us via email.***

The best way to send the signed and dated consent form is to scan it as a pdf and then when replying to this email attach the pdf.

If you do not have access to a scanner, you can use your phone to take pictures of the consent form (all 3 pages, please) and send us the jpg files. Please make sure the pages are readable before sending it.

You must complete and sign the consent form prior to us making arrangements with Sprint for you to receive your phone. So please do this as soon as possible.

Thanks again for your participation,

David Hachen

on behalf of the NetSense Project
