1 Citation Guide

If you use the NetSense dataset, the de-identified data panels, or this Quarto codebook in an academic publication, presentation, or report, please cite both the original dataset and this codebook as described below.

1.1 Dataset Statistics at a Glance

Below is a quick reference table showing the sizes and scopes of the standardized datasets available in this release.

Dataset Stream	Core File	Record Level / Row Count	Variable Count	Time Span / Scope
Demographic Surveys	demographics_longitudinal_clean.csv	Individual ($N = 203$ students)	1556 attributes	Waves 1 to 6 (Longitudinal)
Social Network Surveys	network_surveys_longitudinal_clean.csv	Longitudinal nomination dyad ($N = 11,818$)	979 attributes	Waves 1 to 8 (Panel)
Proximity Networks	weekly_contact_networks_longitudinal_clean.csv	Networked dyad-week ($N = 165,967$)	7 attributes	Weeks 8 to 41 (34 academic weeks)
Bluetooth Mapping	BT_egoid_mapping.csv	Individual ($N = 189$ devices)	2 attributes	Device-to-ID Crosswalk
Variable Catalog	variable_catalog.csv	Attribute ($N = 3,651$ variables)	3 attributes	Compiled metadata dictionary

1.2 1. Citing the NetSense Dataset

To credit the principal investigators and the University of Notre Dame for compiling the original multiwave dataset, please use the following citation:

1.2.1 APA 7th Edition

Striegel, A., Hachen, D., Poellabauer, C., & Lizardo, O. (2026). *The NetSense Study: A Multiwave Dataset of Student Social Networks, Demographics, and Bluetooth Proximity at Notre Dame* (Version 2.0) [Data set]. University of Notre Dame. <https://github.com/your-username/your-repository-name>

1.2.2 Chicago Manual of Style (Author-Date)

Striegel, Aaron, David Hachen, Christian Poellabauer, and Omar Lizardo. 2026. *The NetSense Study: A Multiwave Dataset of Student Social Networks, Demographics, and Bluetooth Proximity at Notre Dame*. Version 2.0. Dataset. University of Notre Dame. <https://github.com/your-username/your-repository-name>.

1.3 2. Citing this Codebook & Standardized Panels

If your analysis leverages the standardized demographics panel, consolidated network waves, or the aggregated weekly physical proximity networks produced by this repository, please cite this resource:

1.3.1 APA 7th Edition

NetSense Research Team. (2026). *NetSense Study Interactive Codebook and Standardized Data Website* (Version 2.0) [Computer software]. <https://your-username.github.io/your-repository-name/>

1.3.2 Chicago Manual of Style (Author-Date)

NetSense Research Team. 2026. *NetSense Study Interactive Codebook and Standardized Data Website*. Version 2.0. Computer software. <https://your-username.github.io/your-repository-name/>.

1.4 3. BibTeX Entries

For LaTeX users, you can use the following BibTeX entries:

```
@misc{netsense_dataset_2026,  
  author      = {Striegel, Aaron and Hachen, David and Poellabauer, Christian and Lizardo, Omer},  
  title       = {The {NetSense} Study: A Multiwave Dataset of Student Social Networks, Demographics, and Attitudes},  
  year        = {2026},  
  version     = {2.0},  
  publisher   = {University of Notre Dame},  
  howpublished = {\url{https://github.com/your-username/your-repository-name}},  
  note        = {De-identified and consolidated public release}  
}  
  
@software{netsense_codebook_2026,  
  author      = {{NetSense Research Team}},  
  title       = {{NetSense} Study Interactive Codebook and Standardized Data Website},  
  year        = {2026},  
  version     = {2.0},  
  howpublished = {\url{https://your-username.github.io/your-repository-name/}},  
  note        = {An interactive Quarto-based documentation portal}  
}
```

1.5 4. Funding and Acknowledgments

The NetSense study was supported by grants from the National Science Foundation (NSF) and the University of Notre Dame. Any publication or report utilizing these data should include the following standard acknowledgment:

“The data used in this research were collected as part of the NetSense study at the University of Notre Dame, which was supported by the National Science Foundation (Grant No. CNS-1028269, CNS-1028271, and IIS-1247696). The views, findings, and conclusions expressed here are those of the authors and do not necessarily reflect those of the National Science Foundation or the University of Notre Dame.”
