Can you look over the note and respond to me about the questions. WOULD love to get this tied up this afternoon so we can release survey tonight or first thing in the morning D From Evernote: Student lists I have compared 3 lists (1) Email list sent by Penta (2) master key list which was of original 196 (?) students (I put this together and it merges in key that Brandon created) (3) SHu list that she generated for phone turn in

- Everyone on Penta list is in Master Key
- In Master Key list there are 4 people who have dropped and for which we did not generate
- In Master Key list there are 4 people who are not on Penta list nor on Shu's List: Sul,
- The following people are NOT on Shu's list, but are on Penta and Master Key listL: Georg

Yes, most of the above dropped this semester.

If you need a full list of dropped from the very beginning, please let me know.
