Dear NetSense Participant,

We have fantastic news to report. Thanks to the generosity of Sprint, the NetSense Project will continue for another two years! This means that if you elect to continue to participate in the NetSense Project, you will receive a new smartphone (most likely the Samsung Galaxy S3) and the same free plan you now have through May 2015 (graduation).

We are still working out the details and will send out another email in the next few weeks, but we wanted everyone to know now that they do not need to find an alternative phone plan during the summer.

We will be making a few changes to improve the smoothness of repair and maintenance issues. Currently the NetSense Project is responsible for your phones due to the need for customized monitoring software. This has meant that all repairs need to be done through NetSense. Under the new system, you will use the normal version of Android that comes on the phone which, we expect, will improve both the stability and reliability of your phone. In addition, we will ask that you purchase insurance (estimated to be \$10-\$15 / month) for the phone to enable repair at the local Sprint store and a much faster resolution for any phone issues. For those with financial need, special arrangements can be made to enable your continued participation.

We really appreciate your patience and cooperation with our research effort.

Best regards,

The NetSense Project Team

p.s. Thanks to everyone who has already completed the two surveys and filled in the Google spreadsheet. If you have not already done so, please do so as soon as possible. Thanks!
