

Table of contents

Data as of 1/18/2016 (most of this is in NetSense/DATA/Annon Data)

Revised 3/4/16

- *NetSenseBehavioralDataActiveEffectiveByWeek.csv*: Arc list with weekly indicators of whether arc was active and/or effective in each week (weeks 0-107). Created by Matt from event data
- *NetSenseBehavioralDataCodedForR.csv*: Event list created by Matt. Very big
 - EgoID - from whose phone data retrieved
 - See document *Ego and Alter Coding Conventions* for coding of ego and alters
- *demsurveyMergedCodedDisID.csv*: Merged Survey data (wide) with identifying info removed. Created by Lizardo from *demsurveyEncodedAC.csv* which was created by Matt. See dis-identifying-code.do and demsurveyIdentifiers.csv in DATA/Demographic Survey .

NOTE: Club codes have been merged in. For what codes mean see 20152303_clubs_list_master_code_csv and 20153203_clubs_list_code_key in DOCUMENTATION/Clubs Coding

- *demsurveyEncodedAC.csv*: NOT REMOVE ID STUFF. NEED TO RUN OMAR'S .DO PROGRAM
- *netsurveysMergedWideCodedFDAC.csv*: Created by Matt. This is list of all alters named by a study participant in 1 of the six waves for the network survey. [***Merged in codes for activities names by ego based on Carly coding -- see Documentation/Activities Coding***]. Data is only some of the data from network survey: NEED TO GO OVER THIS FILE
- *arcWeeklyTableCombined.csv*: Created by Matt. Extended version of *NetSenseBehavioralDataActiveEffectiveByWeek.csv*. This file has for each arc (pair) a set of measures for both the week (frequency, freq broken down by text vs calls, active and effective dummy, sums for sms length and calls duration, reciprocated dummy and weighted) and cumulative (e.g, effective age, active age, cumul freq, etc.) Need to get full documentation from Matt

Other Data

- *top20survey.xlsx*: Edge list with information on alter of participants/ego (gender, closeness, relation, ND, years known) obtained from ego through a google “form.” This is in NetSenseTop20 folder.
- Grade data: Raw file from registrar is Hachen Final Grade Report.xlsx. Uses anon id numbers for subjects. Codes are on Grade Codes sheet. Mike generated dyad file that list all pairs of instudy subjects that took the same class in a given semester. File is ClassDyads-2015-09-30.csv. Data needs to be merged into ????. Also need to get the grade data in order, and work on identifying students with similar courses (courses in same subject area).
- quiz data: These were pushed to students. There were two sets, a general set with lots of questions and a political set around the elections. They are in DATA/Quiz Data folder. y
